

G3 SIDE BET: RULES OF PLAY (\$1 = 1 CREDIT)

1. *Progressive Pai Gow Poker – G3 Edition* is a game with optional multi-bet side wager.
2. Players must play the underlying game to be allowed to play the side bet. They can place a side bet on their own hand or on the dealer's hand.
3. For the player to participate in side bet, he must first buy in (purchase credits) from the dealer. The dealer will then enter the credits into his keypad, and the credits will appear in the player's credit bank.

5. The meter will be reseeded when a 100% award hits. The cost of the reseed has been factored in to the casino's mathematical advantage.
6. To begin each round, players must make their standard game wagers and their multi-bet side wager on player and/or dealer's hand. Players must place these bets on the Personal Bet Manager (PBM) in front of their betting positions. The wager(s) will be displayed on the PBM's display. There is a player button and a dealer button. The player must press these buttons to place wager(s).
7. Once all players have placed their bets, the dealer will then press "START" on the dealer keypad. The PBMs will then be locked.
8. The dealer then follows house procedures for dealing the regular game.
9. While reconciling standard wagers, the dealer also reconciles multi-bet side wagers.
 - a. Fixed Prizes:
 - i. These prizes are multiplied by the number of credits the player wagered on the winning hand.
 - ii. All fixed prizes won with the PBMs (i.e. side wagers) on the player and/or dealer hand(s) will be paid directly to the winning player's PBM. This will deduct the appropriate amount from the meter. **Note:** At the casino's discretion, some high level prize payouts may require authorized personnel such as supervisor or manager.
 - iii. If the dealer hand qualifies for a side bet prize, each player who has placed a bet on the dealer hand will be awarded the amount multiplied by their respective bet.
 - b. Progressive Prizes:
 - i. All progressive jackpot prizes are paid according to a \$1.00 side wager equivalent.
 - ii. The top hand pays 100% of the progressive jackpot. This prize is NOT multiplied by the number of credits wagered. The secondary hand pays 10% of the progressive jackpot. This prize is NOT multiplied by the number of credits wagered.
 - iii. If the dealer hand qualifies for a progressive prize, the progressive jackpot prize will be proportionally divided according to the number of credits wagered on the dealer's hand by each player.
 - iv. In the event that more than one prize pay hits during the same round, the dealer will first pay the players in the same order in which the hands are paid. **Note:** Left to the casino's internal controls discretion.
 - v. When a player hits a progressive prize, the dealer should immediately call a floor supervisor.

- vi. Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.
 - vii. In the case of multiple linked tables, winners are paid on order in which the supervisor authorizes the wins. It is recommended to process tables in the order that the wins occur. **Note:** Left to the casino's internal controls discretion.
10. At the end of the hand, the dealer presses "STOP". This unlocks the PBMs.
 11. If the dealer enters the wrong information, authorized personnel must resolve the situation using the Game Server features.
 12. If the dealer makes a mistake while dealing the cards, he should declare the hand a misdeal, and re-deal the cards. **Caution:** The dealer must not press STOP. Each player's side bets will remain the same during the re-dealt hand.
